

HSE MANAGEMENT

- HSE aspects of operations are an integral part of how we do business.

- We think before we act.

- Our activities are planned, organized and performed in a safe and quality-focused manner from the

management floor to ground level.

- It is essential to our success and ultimately our clients.

OUR TARGETS:

- To operate in a safe, secure and healthy environment by considering all HSE standards from beginning to end of project.
- To work towards prevention of accidents and harm to any persons by analyzing and managing potential risks.
- To preserve and improve the environment by incorporating training and awareness in our project team and appointed sub-contractors.
- To provide information and instructions to our personnel to operate in safe environment by coordinating with local communities and companies to minimize disruption of established local surrounding environment.
- To maintain HSE standards at all times by continuous updating and auditing.
